## Hobbies

Playing Games

## Education

Uniersity Bina sarana Informatika

Sukabumi , Indonesia 2019 - Present

## Profile

i am a website developer and UI / UX Designer  
My own strengths are that I am a hard worker  
and never give up in doing something and take  
responsibility for something I have done. I dare  
to take risks with whatever I decide and most  
importantly I am honest with something  
without covering up.

I am weak in speaking in front of people and  
my English is still at an early stage, until now I  
am still improving my ability to speak English.  
Because this company is in accordance with  
what my expertise is, and want to participate in  
developing it

## Tools and Skills
